Parallel Coordinates: Visualization, Exploration and Classification of High-Dimensional Data

Alfred Inselberg

14.1 Introduction 644
Origins 644
The Case for Visualization 646
14.2 Exploratory Data Analysis with ‖-coords 648
Multidimensional Detective 648
An Easy Case Study: GIS Data 649
Compound Queries: Financial Data 655
Hundreds of Variables 663
14.3 Classification 664
14.4 Visual and Computational Models 668
